The Panama Canal Commission Report.

A Frightful Holocaust.

MONTREAL, May 6.—The Insane Asylum at Longue Point, nine miles from here, caught fire at 11:30 o'clock this morning, and at 2 o'clock it was a mass of flames and no hopes of saving the building from utter destruction.

As near as can be calculated at this hour, there were from one hundred to one hundred and fifty inmates in the burning building, with no chance of escape.

The fire apparatus at the Asylum was utterly inadequate, and several steamers have been forwarded from here on a special train.

The sights on the grounds surrounding the institution are horrible beyond description. Hundreds of lunatics, male and female, are grouped together, gibbering and in a frenzied condition. The nuns are making every effort to control them and allay their fears, and as rapidly as possible, the poor creatures are being removed to places of shelter in the neighborhood.

A few minutes after 2 o'clock a detachment of the Montreal fire brigade arrived on the scene, and are now doing good work.

3:30 P. M.—The firemen are still working and have succeeded in rescuing several, in many instances at the risk of their own lives. Thousands of persons flocked to the scene from this and the surrounding country. The nuns, doctors and other attendants are besieged with anxious inquiries after friends or relatives. One of the doctors connected with the institution was seen this afternoon and said there was very little commotion among the inmates when the alarm was given, for the most part walked out quietly.

Some, however, refused to leave their cells and had to be taken out by force. Those who perished were in the wards on the top floors. Efforts to learn their names have so far proved futile, as those rescued are so scattered that no roll can be called. All books and records were saved. Two firemen fell from a high ladder and were badly hurt.

The excitement among the lunatics in the grounds finally became so great that a detachment of Montreal police was forced to assist the guards. There were 1,000 persons in the asylum when the fire broke out.

Panama Canal Report.

PARIS, May 6.—The report of the special commission sent out by Brunet, liquidator of the Panama Canal Company, to investigate the condition of the canal, estimates it would cost 485,000,000 francs to complete the canal on the lock system. To this should be added twenty per cent. for unforeseen expenses and twenty-nine per cent. for the expenses of the management and interest. The total cost is fixed at 900,000,000 francs. The report further says it would take between seven and eight years to complete the canal. The annual cost of the management is estimated at 10,000,000 francs. According to the estimates of the Commissioners, the net receipts for the first three years after opening would be 38,000,000 francs annually, gradually increasing year by year until twelve years after the opening, when they would amount to 61,000,000 francs. The material of the old company and the locks already perfected are valued at 450,000,000 francs.

A Modest Executive.

ALBANY, N. Y., May 5.—Governor Hill to-day sent to the Legislature a message suggesting a change in the method of contested elections. He suggested submitting to the people an amendment to the State Constitution which will take from each house the power of judging its own elections and confer jurisdiction upon the courts. He would also recommend to Congress to adopt a similar amendment to the Federal Constitution.

Anarchists Arrested.

PARIS, May 6.—The leaders of the Anarchists at Lille and Roubaix, to whose instigation much of the disorder among the workmen is due, have been arrested.

Outraged and Murdered.

DENVER (Col.), May 5.—The police are of the opinion that Mrs. Butterfield, who was found murdered in her house yesterday, was killed by some man who called at the house for the purpose of renting a room. Finding her alone he attempted to outrage her, and in the fight which ensued, struck her a blow in the temple which caused her death. The woman's clothes were torn in shreds and the body was badly scratched. Finding that the woman was dead, the wretch covered her body with a blanket, washed his bloody hands in a wash-bowl in the room and left. The crime was probably committed between 4 and 8 P. M. Saturday, and the body was not discovered until Sunday evening.

Late this afternoon the police arrested a man who gave the name of Charles Munson. His face was very badly scratched and his eyes blacked. The man could not tell who it was that scratched him, or when or where it happened. The police believe they have the right man.

A Penitent Penitentiary.

TRENTON, May 5.—Casper Soer, chief clerk in the money order department of the Newark Postoffice, and who came here on Saturday last and surrendered himself to the United States authorities, confessing that he was a defaulter, is still in the Trenton jail. He refuses to be released on bail, and says that as he has disgraced his wife and friends, he does not care to return to Newark. He will plead guilty. His pecuniations, it is said, amount to several thousand dollars.

Bar silver, 102.

The Worst Feared.

BERLIN, May 6.—A letter received from Joseph M. Hawley, the absconding member of the failed firm of Mather & Co., confesses that he lost the funds of the bank in speculation, and it is said that he is en route to Cuba. An investigation is in progress and the worst is feared.

LOCAL INTELLIGENCE.

Special Meeting of Whys.

A special meeting of the Why Club is called for this evening at their club rooms. Beware of the torch. BENJAMIN SHEARER, Chief Why.

About 2 o'clock this afternoon this locality was favored by a brisk thunder shower, which laid the dust, moistened the atmosphere and encouraged vegetation.

SENATOR BECK.

His Funeral To Take Place To-Morrow.

OPENING OF THE REICHSTAG.

Emperor William Defines His Policy.

The Chicago Carpenters Settle Their Trouble.

Emperor William's Policy.

BERLIN, May 6.—The Reichstag was opened by the Emperor to-day. In his opening address his Majesty declared that his efforts to maintain the peace of Europe would increase. He expressed the conviction that he will succeed in confirming the confidence of the powers in the pacific policy of Germany. "Germany," the Emperor said, "recognized it her duty to maintain peace by cultivating an alliance for the purposes of defense, and by perfecting her armaments, for which purpose a new military credit will be asked."

The Emperor announced that measures will be presented for the improvement of the condition of the workmen.

The strikes during the year suggested an examination of the question whether the existing laws adequately took into account the justifiable wishes of the workmen. The questions claiming foremost attention were those of Sunday rest and women's and children's labor. The Federal Government is convinced that the proposals of the last Reichstag might, in essential points, become a law without detriment to other interests. Legal provisions for the protection of the workingmen against dangers threatening their lives and health are more susceptible of amendment, as were also the laws relative to the issue of labor regulations. The rules concerning the workmen's books are also required to be supplemented with the object of assuring a parental authority in view of the increasing insubordination among the youthful workmen. A bill on this subject will be laid before the Reichstag.

Another bill will be submitted for the better regulation and organization of the industrial Courts of Arbitration.

The Emperor continued: "I trust you are willing to co-operate to bring about an agreement between the legislative bodies upon the proposed reformation and thus take a significant forward step in the peaceful development of the conditions of labor. A just solicitude for the workmen constitutes a most effectual means by which to strengthen the resources with which I and my exalted allies are resolved to oppose with unbending determination any attempt to disturb the legal order of things. In effecting these reforms only such measures will come up for consideration as can be carried out without endangering the industries of the Fatherland. Our industries only form a link in the economic work of the nations competing in the world's markets. I have, therefore, made a point of going about among the European States where the economic position has the same character for an exchange of views regarding the joint recognition of legislation required to protect the workmen, and I most gratefully acknowledge a favorable reception of my suggestions by all the States concerned. The resolutions adopted by the recent labor conference at Berlin expressed the common views on the most important field of work and culture of our times. I do not doubt the principles laid down in those resolutions will form seed under God's help, from which will spring up happiness. The workmen will be blessed by the fruit, which will be harmonious relations between the people."

Referring to the foreign relations of Germany, his Majesty said his efforts were unceasingly directed towards the maintenance of peace.

A bill will be submitted enacting that an increase of the army shall come into force on October 1st.

Touching colonial affairs, the Emperor said that the action taken in East Africa for the suppression of the slave trade and the protection of Germany's interests had progressed rapidly during the last few months, and it is hoped tranquility will soon prevail in those regions.

Senator Beck's Funeral.

WASHINGTON, May 6.—Under a dripping sky, the remains of Senator Beck were borne this morning to the Capitol. Arriving at the east front of the Senate wing, the casket was borne

up the steps into the marble room, where it was visited by several hundred people before its removal into the Senate chamber.

After the formal opening of the Senate a short recess was taken. About 1 o'clock it reconvened. The House of Representatives, the Supreme Court, the diplomatic corps, and the President and Cabinet then appeared and took seats, and then the casket was borne in, followed by the mourners. The brief funeral service was conducted by Chaplain Butler and ex-Chaplain Bullock.

The casket was borne out by a detail of Capitol police, followed by an official body, and the Senate adjourned till to-morrow.

The casket was followed by a procession of the Senate and House, the President and Cabinet and the mourners to the Baltimore & Potomac depot, where it was put on board a train for conveyance to Lexington, Ky., at which place the remains will be interred to-morrow.

The Illinois Strikers.

CHICAGO, May 6.—The carpenters' strike was finally settled to-day, when the representatives of the Carpenters' Council and the new Boss Carpenters' Association signed the agreement reached by the arbitration committee yesterday.

There now seems to be no prospect of a settlement of the coal miners' strike, and according to the *Evening News*, a general strike of 30,000 miners is imminent. About 12,000 are now out. Their demand is for an increase of 7½ cents per ton.

Charged With Three Murders.

FORT SMITH, Ark., May 5.—Greenleaf, the notorious Seminole outlaw, who has eluded all efforts to arrest him for the past eighteen years, has been captured, and was yesterday placed in the United States jail. He has three cases of murder pending against him in the Federal Court here, and has killed four of his own tribe since.

NOS. 29 AND 31 VIRGINIA ST., - RENO, NEV.

There is a little real estate boom reported in La Jara, Col., consequent upon a migration of Mormons and the setting up of a new "Zion" there. It will be a very disastrous boom if it materializes. These Mormons profess to be monogamists, but they are of the Salt Lake crowd and their monogamy in Colorado, as in the Canadian Northwest, depends entirely upon the progress of their settlement. Their presence will inject a troublesome factor into the politics of the State. The Bulletin says: Ten thousand Mormon votes would hold the balance of power and perhaps make Colorado Democratic. Under such a condition of affairs these Mormons would be likely to get very nearly whatever they might want and become entrenched within State lines beyond the operation of the Edmunds law and like Federal legislation.

CLEVELAND'S boom in 1892 was started at Hagestown, Md., last Friday night. It is Southern and Free Trade in spirit and was very properly born in a Southern State, although judging from the way of the popular vote of Maryland has been tending for several Presidential Elections, it is very uncertain how she may go the next time. In 1888 Cleveland had only 1466 majority over Harrison and Fisk, the prohibition candidate although Gorman's machine was in full action. Since then the machine has got a little loose in the joints and may not work quite as well the next time. Besides modern progress is creeping Southward through Maryland and Virginia.

It is charged that the Farmers' Alliance of Texas is controlled by a political clique which has squandered the funds for personal interests. About the first step of the Alliance was to take a position in political affairs where they become complicated with economic issues. From that gravitation to "regular" political methods is almost inevitable. Free trade and inflation have generally found favor with the Alliance, and some of the hungriest politicians in the country stand ready to "work" it on that point.

The manner in which the great workmen's demonstration was conducted in London Sunday was a credit to the industrial classes of the metropolis. There, if anywhere, they have labored under hard conditions. That half a million of them could gather in a body without a breach of good order tends strongly to show that they deserve whatever leisure from long hours they were assembled to demand.

Three ships of the Squadron of Evolution, now at Malta, have been ordered to the South American station. Meantime another squadron of faster and more improved vessels is nearly ready for service and may soon be sent to Europe for show and practice. The verdict of European cities has been that the squadron of Evolution was excellent of its kind. We can do still better in the future.

BOULANGER says he has no intention of returning to France. The report of his proposed return was probably got up for May-day effect. The brave General dreads the civil tribunal, as well as a military court. It is now reported that his followers threaten to abandon him if he does not return. A leader hiding from charges of peculation is not a very heroic or dignified figure in exile.

The tariff debate will open in the House during this week and may continue a fortnight. No doubt the Protection side of the question will be ably presented, but the best argument is to the eye rather than the ear, in a glance at the developed industries of the country.

From the fact that the secretary of a base-ball club has sought refuge in Canada, it may be inferred that the national games is or was prosperous.

CALIFORNIA is the first State to apply for space at the World's Fair.

Steady Progress

Has characterized Hood's Sarsaparilla ever since it was placed before the public. Wherever introduced, its sales have grown from year to year, until now it is the most popular and most successful medicine offered. Any druggist will confirm this statement. The secret of this success lies in the fact that Hood's Sarsaparilla is a medicine of merit. It does actually accomplish all that is claimed for it, and when given a fair trial, is reasonably certain to be of benefit.

Positive Statements.
"Since Hood's Sarsaparilla has been in my hands for sale I have had frequent and unreserved testimonials in its favor. Although carrying this preparation for less than one year, my sales have been greater than of any similar preparation, and the testimonials in its favor are at once positive and personally noticeable." A. WILSON, Hedgesburg, Cal.

Sells On Its Merits.
"My boys say, 'Papa, why don't you buy more of Hood's Sarsaparilla at a time; we are always short.' It sells on its own merits." F. BEAL, Portland, Oregon; the oldest druggist in Oregon.
